

European
Polycarbonate
Sheet
Extruders

An EuPC Sector Group

PRESS RELEASE

Brussels, 16 January 2006

New EPSE President elected

EPSE, the European Polycarbonate Sheet Extruders, a sector group of EuPC, the European Plastics Converters (B), held its General Assembly on 13 December 2005 in Brussels.

During this meeting, the members of the Sector group unanimously elected a new President, Vice-President and Treasurer for 2006-2008. Bob Caddick, Marketing Manager of Quinn Plastics, will succeed Robin Black, of Brett Martin as EPSE President for the next 2 years. Mr Shai Michael, from Palram, has been elected Vice-President, and Mr Leif Nilsson, ArlaPlast AB, treasurer.

"I will continue the excellent work of my predecessor Robin Black to achieve greater awareness of the benefits of using PC sheets in Europe despite the fact that the economic situation is difficult and business growth is tough. Working together as an industry towards obtaining CE marking for our products will remain an important activity of our EPSE group", said Bob Caddick last month in Brussels after his election.

EPSE is the European Polycarbonate Sheet Extruders association, representing all major producers in the PC sheet extrusion industry. Its membership comprises: ArlaPlast AB, Bayer Sheet Europe, Brett Martin, Dott. Gallina, General Electrics Plastics BV, Kaysersberg Plastics, Palram, Polygal, and Quinn Plastics.
